DELBIN D.B

JAVA BACKEND DEVELOPER

91 + 8610727764 | GIT HUB | LINKEDIN | delbin2019@gmail.com

KANIYAKUMARI,TAMIL NADU,INDIA

EDUCATION

St.Xaviers Catholic College Of Engineering ,Anna University
Bacherlor Of Information Technology

Aug 2019 - July 2023
Kaniyakumari, India

St.Franchis Higher Secondary School
Hsc

Jun 2017 - July 2019
Kaniyakumari, India

EXPERIENCE

JAVA BACKEND DEVELOPER INTERN

Sristhi Innovative

Feb 2024 - Present
Trivandrum,India

- Currently completing an internship focused on Java backend development, applying advanced programming techniques to real-world projects.

- Successfully developed and deployed a backend project, showcasing strong skills in Java and backend technologies

- Acquired in-depth knowledge of Java backend frameworks, tools, and best practices through hands-on experience.

- Collaborated with a team to enhance backend functionalities, optimize performance,and ensure seamless integration with frontend components.

SKILLS SUMMARY

- **Languages**: Java, SQL
- **Frameworks**: Spring Boot, Spring, Servlet
- **Tools**: GitHub, MySQL, PostgreSQL
- **Platforms/IDEs**: IntelliJ IDEA, Visual Studio, Eclipse
- **Technical Skills**: Data Structures and Algorithms (DSA)

PROJECTS

To-Do List Application

- Developed a web-based To-Do List application, enabling users to manage tasks effectively with CRUD functionality. The application features a user-friendly interface for smooth navigation and interaction.
- **Technologies**: Java Servlets, MySQL, GitHub

Snake Game Application

- Created a classic Snake Game using Core Java, implementing game logic and user controls for an engaging experience. Utilized JSON Web Token (JWT) for secure session management and user authentication.
- **Technologies**: Core Java, JWT

Online Mart Application

- Built a comprehensive e-commerce application with Spring Boot, facilitating product management, user accounts, and order processing. Developed a RESTful API for efficient communication between frontend and backend components.
- **Technologies**: Spring Boot, Core Java, MySQL, GitHub
